JEAN-LUC LAGARDERE TOUR: A380 SITE

The tour begins in the «telemetry room» with a presentation of the A380 programme. You will then enter the Jean-Luc Lagardère site and see, from an observation tower, the general testing stations, the outside testing stations and an overall view of the entire site. Finally, as a new feature of our exclusive tour, you will board a full scale model of the A380 (a 16m section of the fuselage with fully equipped main and upper decks) and discover the secrets of the interior of the world's only true double decker.

You will be asked to fill out an information sheet, to return to us at least 10 days prior to the day of the tour. The visit is strictly limited to 49 people (driver included). On the day of the visit, each participant shall present an original identity document, otherwise the access to the site will be denied.

Return by bus to the City Centre

Required information to book a tour:

- French and EU citizens: name and maiden name for married women, first name, date and place of birth, nationality and phone number.
- No EU citizens: name, first name, date and place of birth, nationality and phone number.

Each visitor will have to show an identity card before the tour (EU citizens: I.C or Passport / No EU citizens: Passport).

Cameras and camcorders are not allowed on the site.

The Airbus security service reserves itself the right to close the access to the site without notice (for example in the case of an official visit). These circumstances are outside taxiway's control (for the visitors, proposal of a new schedule for the tour and refund if no choice).

This rate includes :

- the transport by bus to Airbus site and return, and the same coach during the visit
- entrance fees and guided tour at Airbus site
